Research articles

Analysis of remedial alternatives of the Nanji Landfill, Korea: Hahn J 12
Anthropogenic influences on hydrocarbon contents of sediments deposited in eastern Lake Ontario since 1800: Bourbonniere RA, Meyers PA 22
Assessment of ^{210}Pb data from Canadian lakes using the CIC and CRS models: Turner LJ, Delorme LD 78
Characterization of groundwater contamination using factor analysis: Subbarao C, Subbarao NV, Chandu SN 175
Distribution of indoor radon concentrations and uranium-bearing rocks in Texas: Hudak PF 29
Dominance of point source in heavy metal distributions in sediments of a major Sydney estuary (Australia): Birch GF, Evenden D, Teutsch ME 169
Feasibility and cost of creating an iron-phosphate coating on pyrrhotite to prevent oxidation: Georgopoulov ZJ, Fytas K, Soto H, Evangelou B 61
Geochemical factors controlling accumulation of major and trace elements in Greenland coastal and fjord sediments: Loring DH, Asmund G 2
Size of a debris flow deposition: model experiment approach: Liu X 70
Suitability of Hydrologic Evaluation of Landfill Performance (HELP) model of the US Environmental Protection Agency for the simulation of the water balance of landfill cover systems: Berger K, Melchior S, Miehlich G 181
The conservation of Britain's limestone cave resource: Hardwick P, Gunn J 121

Cases and solutions

Agriculturally induced environmental changes in the Burren Karst, Western Ireland: Drew D 137
Chernobyl radiocaesium in a karst system, Marble Cave, Crimea: Klimchouk AB, Gudzenko VV 161
Discovery of the Avon – Solent Fracture Zone and its relationship to Bath hot springs: Kellaway GA 34
Groundwater problems resulting from CO_2 pollution and overexploitation in Alto Guadalentín aquifer (Murcia, Spain): Cerón JC, Pulido-Bosch A 223
Hydrochemistry of aquifers in the southern Dead Sea area, southern Jordan: Abu-Jaber NS, Wafa NA 213
Identifying water-quality trends in the Trinity River, Texas, USA, 1969–1992, using sediment cores from Lake Livingston: Van Metre PC, Callender E 190
Impact of liquid waste disposal on potable groundwater resources near Perth, Western Australia: Appleyard SJ 106
Prediction method of sand-movement direction in rivers by geochemical elements: Mizumura K, Nishimoto T, Kumagai Y, Yamamoto T 88
Seepage measurements from Long Lake, Indiana Dunes National Lakeshore: Isiorho SA, Beeching FM, Stewart PM, Whitman RL 99
Suspended particulate matter and dynamics of the Mfolozi estuary, Kwazulu-Natal: Implications for environmental management: Lindsay P, Mason TR, Pillay S, Wright CI 40
Temporal and spatial variations in density and velocity fields of the waters of Gareloch, Scotland: Lindsay P 201
The limestone pavements of Great Asby Scar, Cumbria, UK: Goldie HS 128
The soils on the calcareous sand dunes southeast of South Australia: Urushibara-Yoshino K 154
Vegetation change, erosion risk and land management on the Nullarbor Plain, Australia: Gillieson D, Wallbrink P, Cochrane A 145
